Our Technology

Setex microfibers are designed like geckos' toe hairs, or setae, to provide a comfortable and secure grip.

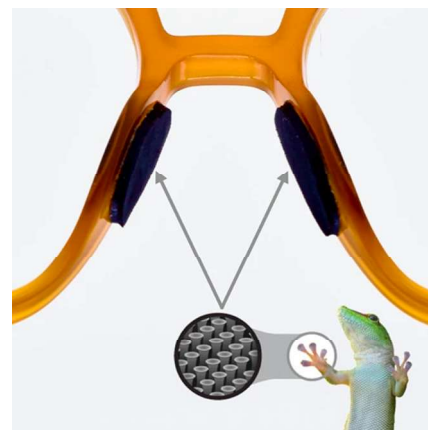

Thousands of mushroom shaped fibers mimic geckos' toe hairs - i.e. setae.

Flexible Setex fibers provide soft, comfortable contact to skin.

Setex's microstructures provide a secure grip in wet and oily conditions.

Our Setex grip product materials passed ISO 10993-10 Certification - Biological Evaluation of Medical Devices, Part 10: Tests for Irritation & Skin Sensitization.
